

EHC Plan

Sometimes we might need extra help in school, college or training.

You may have something called an Education Health and Care Plan.

This is sometimes called an EHC Plan.

The EHC Plan will use information from your EHC Needs Assessment to say what to achieve and what support must be provided to help you.

Everyone will have a different plan because it is all about you. We are all different.

It will have information like

- Who you are
- How you communicate
- What you want to achieve
- Why you need help with things
- What kind and amount of support you need and how often you must get it
- Where you go to school or college (if you do)

Once this support is written down in the plan, it must be given to you.

All the people that support you will be able to see you plan. It should help them work together to support you.

You have the right to say what kind of information you think should be in your plan and who you want to see it.

EHC plans will carry on until you are 25 years old. They will stop if:

- You go to University
- You get a job
- The local authority think you do not need it anymore

The local authority might say that you do **not need** an EHC plan anymore if there are **big changes** that mean you no longer need the support in the plan. They will tell you first.

If you **do not agree** then you can say so. You can ask RIASS for help.
